

Measure DI Technologies

Enterprise RevOps Platform & Standard Operating Procedures (SOP v3.0)

Comprehensive Operational Manual, Role-Based Training & Full 27-Module Navigation Architecture

Complete Separation of Capital Equipment Sales and Service & Quality Revenue Engines

Document Metadata & Release Governance:

- Core Architecture: Overview -> Sales (Equipment) -> Service & Quality (AMC/Parts) -> Finance -> HR -> Performance
- Strict Segregation: Capital Equipment deals vs Service Tickets, AMC Lifecycle (Leads->Quotes->Orders->Invoices) & Spares
- Target Audience: Managing Director, VP RevOps, Commercial Managers, Service Engineers, Finance & HR Executives

1. Complete Navigation Map & Workspace Hierarchy (27 Modules)

Measure DI RevOps is architected into 6 distinct domain menus and 27 modular workspaces to guarantee strict operational separation between Cap

MEASURE DI REVOPS -- 27-MODULE SYSTEM DIRECTORY & WORKSPACE MATRIX

[OVERVIEW]

- * 1. Executive Dashboard (dashboard.html)

[SALES & REVENUE (EQUIPMENT ONLY)]

- * 2. Equipment Sales Leads (leads.html)
- * 3. Equipment Quotations (quotations.html)
- * 4. Equipment Orders & POs (orders.html)
- * 5. Equipment Invoices (invoices.html)
- * 6. Payments & Collections (payments.html)
- * 7. Master Data & Bulk Upload (master-data.html)
- * 8. Audit & Activity Trail (audit-logs.html)

[SERVICE & QUALITY (DEDICATED REVENUE HUB)]

- * 9. Service Tickets & QC (service-tickets.html)
- * 10. AMC Registration & Monitoring (amc-contracts.html)
- * 11. Service & AMC Leads (service-leads.html)
- * 12. AMC Quotations & Proposals (amc-quotes.html)
- * 13. AMC Order Registration (amc-orders.html)
- * 14. AMC Invoice Generation (amc-invoices.html)
- * 15. Parts Sales Revenue Model (parts-sales.html)
- * 16. Warranty Management & Claims (warranty-management.html)

[FINANCE & LEDGER]

- * 17. Expenses & Profit Center (expenses.html)
- * 18. Payroll & CTC (payroll.html)

[PEOPLE & HR]

- * 19. Employee Directory & Roster (employees.html)
- * 20. Attendance & Leaves (attendance.html)
- * 21. My Team Workspace (my-team.html)

[PERFORMANCE & STRATEGY]

- * 22. My Scorecard (my-scorecard.html)
- * 23. Daily Work / DWM (dwm.html)
- * 24. KRAs & Target Metrics (kra-targets.html)
- * 25. Performance Reviews (reviews.html)
- * 26. Annual Operating Plan / AOP (aop-targets.html)
- * 27. Standard Operating Procedures / SOP (sop.html)

[DOCUMENTATION & ANALYTICS]

- * Executive Reports & PDF Guide (reports.html / user-guide.html)

2. Standard Operating Procedures (SOP) -- Role-Based Operational Manual

SOP 1: Day 1 Onboarding & Daily Routine Cadence (Every Employee)

[HR-DWM-SOP-01]

1. 09:00 AM - Punch In & Location Tagging

[attendance.html]

Log in to Attendance & Leaves. Choose work mode (Office, Field/Site, WFH). Click "Punch In" to timestamp your shift. Half-day and leave requests must be logged 24 hours in advance.

2. 09:15 AM - DWM Morning Task Commitment

[dwm.html]

Open Daily Work Management. Select active employee session. Plan 3 to 6 discrete tasks for the day, assigning estimated hours and linking to specific Projects, Client Accounts, or Service Tickets.

3. Full-Day Special Assignment Coverage

[dwm.html]

If attending Full-Day Client Training, Emergency Breakdown Site Visits, or ISO/NABL Audits, select "Special Assignment" to be awarded 100% daily productivity automatically.

4. 06:00 PM - Evening Actuals & Scorecard Check

[dwm.html / my-scorecard.html]

Mark completed tasks with actual hours and notes. System computes real-time daily efficiency. View My Scorecard to review achievement ratings against quarterly KRA targets.

SOP 2: Capital Equipment Sales Pipeline (Lead-to-Cash Lifecycle)

[SALES-COMM-SOP-02]

1. Step 1: Lead Ingestion & Qualification

[leads.html]

Capture equipment inquiries for Projects, Onboard Weighing, and Crane Scales. Assign Deal Owner, Client Contact, Vertical, and expected closing date. Filter by 5 pipeline stages.

2. Step 2: Quotation Builder & Discount Approvals

[quotations.html]

Create itemized quote linking Lead. System auto-calculates gross subtotal and GST. Discounts >15% automatically flag for Commercial Head approval; discounts >25% require Managing Director authorization.

3. Step 3: Purchase Order Booking & SLA Milestone Split

[orders.html]

Upon client PO receipt, register Order with PO number, PO date, payment milestone schedule, and delivery SLAs. Reconcile quotation variance if final PO differs.

4. Step 4: Commercial Invoicing & Senior Director Sign-off

[invoices.html]

Finance raises GST Tax Invoices against milestones. Invoices >Rs. 10 Lakhs require Senior / Director authorization before official client dispatch and PDF download.

5. Step 5: Payment Realization & Bank Guarantee Tracking

[payments.html]

Accounts records collections against invoice numbers. Track Bank Guarantees (BG/PG), Retention clauses, and Director-authorized bad debt adjustments.

SOP 3: Service Ticket Raising & Quality SLA Governance

[SRV-TICKET-SOP-03]

1. Step 1: Ticket Ingestion & Cascading Equipment Lookup

[service-tickets.html]

Customer reports issue. Select Client from Master List -> system cascades and filters active Equipment Models and installed Serial Numbers. Select complaint category.

2. Step 2: Repeat Complaint Warning Engine

[service-tickets.html]

If the selected Serial Number had a ticket in the last 60 days, system displays an automated Red Warning Banner highlighting recurring quality/component failure.

3. Step 3: Live Pop-up Notifications to Assigned Engineers

[auth-guard.js]

Assigning a ticket to a field engineer immediately triggers an urgent floating bottom-right notification on their workspace across all pages until reviewed.

4. Step 4: Resolution Verification & QC Sign-off

[service-tickets.html]

Engineer performs on-site inspection, uploads root cause and action taken, replaces parts if required, and closes ticket within mandatory SLA window.

SOP 4: Service & AMC Revenue Hub (Contracts, Quotes, Orders & Invoices)

[AMC-REV-SOP-04]

1. Step 1: Service & AMC Leads Funnel[[service-leads.html](#)]

Dedicated funnel for AMC renewals, warranty expiry conversions, calibration calls, and breakdown inquiries. Completely segregated from capital equipment sales.

2. Step 2: AMC Quotations & Proposal Engine[[amc-quotes.html](#)]

Build Comprehensive (includes parts) or Non-Comprehensive (labor only) proposals with quarterly PM visit commitments, response time SLAs, and automatic SAC 998717 taxation.

3. Step 3: AMC Order Booking & Contract Activation[[amc-orders.html](#) / [amc-contracts.html](#)]

Client signs AMC proposal -> register AMC Order. Generates official AMC Contract in registry with automated quarterly PM visit schedules and renewal countdowns.

4. Step 4: AMC Milestone Invoice Generation[[amc-invoices.html](#)]

Finance issues quarterly advance AMC invoices (Q1-Q4) with SAC 998717 maintenance service codes and tracks cash realization.

SOP 5: Spare Parts Sales & High-Margin Revenue Engine

[PARTS-REV-SOP-05]

1. Step 1: Parts Catalog & Gross Margin Intelligence[[parts-sales.html](#)]

Catalog of critical spare parts (Load Cells, Indicators, Hydraulic Sensors, Junction Boxes, Cables) with COGS, Selling Price, Gross Margin %, and HSN codes.

2. Step 2: Fast-Moving Inventory & Direct Spares Order[[parts-sales.html](#)]

Generate rapid spare parts supply orders with direct customer invoicing and immediate warehouse dispatch tracking.

3. Step 3: Service-to-Spares Upselling[[parts-sales.html](#)]

Field engineers tag worn-out parts during routine PM visits and automatically generate parts quotation leads for the customer.

SOP 6: Warranty Management & RMA Claims

[WARRANTY-SOP-06]

1. Step 1: Installed Base Warranty Registry[[warranty-management.html](#)]

Tracks warranty periods (12 to 24 months) across all delivered equipment, serial numbers, customer plants, and delivery dates.

2. Step 2: Warranty Claim & RMA Processing[[warranty-management.html](#)]

Process Return Material Authorizations (RMA) for factory repair or replacement under warranty with vendor pass-through tracking.

3. Step 3: 1-Click Conversion to AMC Proposal[[warranty-management.html](#) -> [amc-quotes.html](#)]

When equipment enters the 60-day warranty expiry window, 1-click generates an AMC quotation proposal for seamless recurring revenue capture.

SOP 7: Financial Accounting, Expenses & Payroll Governance

[FIN-GOV-SOP-07]

1. Multi-Project Expense Splitting[[expenses.html](#)]

Record travel claims, operational expenses, and direct material bills. Allocate costs across multiple project accounts with receipt attachments.

2. Payroll & Automated LOP Calculation[[payroll.html](#)]

Monthly salary disbursement engine. Pulls attendance punch logs to calculate automated Loss of Pay (LOP), PF/ESI deductions, and net payouts.

3. Profit Center Analytics & Operating Margins[[expenses.html](#) / [dashboard.html](#)]

Real-time profit center analysis matching project revenue against direct expenses to compute exact project gross and net margins.

SOP 8: Enterprise Master Data & Bulk CSV Upload Center

[DATA-BULK-SOP-08]

1. Master Data Repositories[[master-data.html](#)]

Centralized repository for Clients Master (GSTIN, Terms), Projects Master, Spare Parts & Products Master, and Bank Master details.

2. Chunked Batch CSV Import[[master-data.html](#)]

Bulk import clients, products, or historical invoices in batch chunks with automated validation, deduplication, and error reporting.

3. Universal System Data Backup[[master-data.html](#) / [auth-guard.js](#)]

Export full CSV data backups for any collection across all 200 employee records with single-click archive creation.

SOP 9: Director & Super Admin Enterprise Audit Logging

[AUDIT-LEAD-SOP-09]

1. Immutable Activity Ledger

[audit-logs.html]

Universal audit trail capturing every create, update, approval, and delete action across all 27 modules with exact timestamps and actor IP/IDs.

2. Before vs After Field Diffs

[audit-logs.html]

View granular field-by-field before and after modification changes (e.g. quote discount changes, salary edits, invoice status changes).

3. Restricted Access Control

[audit-logs.html]

Strictly restricted to Managing Director and Super Admin roles to guarantee total organizational compliance and tamper-proof governance.

3. Sequential Client Demonstration Script & Screen Walkthroughs

[OVERVIEW] -- Executive Dashboard

dashboard.html

The executive command center displaying macro revenue metrics, deal conversion funnels, expense burn rates, profit margins, and department attendance.

SCREEN MOCKUP: Executive Dashboard

TOTAL REVENUE

Rs. 2,450 L

ACTIVE PIPELINE

Rs. 890 L

NET MARGIN

24.8%

Performance Trend & Governance Analytics Visualization

* Dynamic period scaling across WTD, MTD, Q1-Q4, H1-H2, Full Year.

* Multi-tier authorization gates embedded across billing and contracts.

Key Demonstration & SOP Verification Points:

- * Highlight top KPI metrics (Total Invoiced Revenue, Cash Realized, Operating Expenses, Net Margin %).
- * Demonstrate Period Filter (WTD, MTD, Q1-Q4, H1-H2, FY 2026-27) with mathematical ratio auto-scaling.
- * Show pipeline conversion funnel with live deal status and business vertical breakdowns.

[SALES & REVENUE (EQUIPMENT)] -- Equipment Sales Leads & CRM

leads.html

Capital equipment deal tracker spanning Projects, Onboard Weighing, and Crane Scales through a 5-stage pipeline.

SCREEN MOCKUP: Equipment Sales Leads & CRM

TOTAL LEADS

48 Active

PIPELINE VAL

Rs. 420 L

WIN RATE

38.5%

ID / Entity Name	Category / Stage	Amount (INR) / Rate	Approval / Owner
REC-101 -- Active Item	Verified / Active	Rs. 4.2 Lakhs	Authorized Lead
REC-102 -- Active Item	Verified / Active	Rs. 8.4 Lakhs	Authorized Lead
REC-103 -- Active Item	Verified / Active	Rs. 12.600000000000001 Lakhs	Authorized Lead

Key Demonstration & SOP Verification Points:

- * Filter leads by Sales Stage and Business Vertical (Projects, Onboard, Crane).
- * Demonstrate deal creation modal with auto-calculated weighted pipeline probabilities.
- * Show 1-click generation of quotations directly from qualified lead records.

[SALES & REVENUE (EQUIPMENT)] -- Equipment Quotations & Approvals

quotations.html

Itemized quotation builder with gross margin checks, tiered discount approval triggers (Head & MD), and professional PDF generation.

SCREEN MOCKUP: Equipment Quotations & Approvals

REC-103 -- Active Item	Verified / Active	Rs. 12.600000000000001 Lakhs	Authorized Lead

* Filter audit trail by Module (Sales, Service, Invoices, HR, DWM, Master Data) and Action Type.

* View granular Before vs After field diffs showing exact data modifications and user IDs.

* Guarantees 100% regulatory compliance, financial integrity, and accountability.

Header: Unifying Capital Equipment Sales & Recurring Service Operations

- * Dual Revenue Engines: Strict segregation of Capital Projects (one-off capex) and Service/AMC/Parts (recurring high-margin ARR).
- * Full 27-Module Ecosystem: Complete operational workspace connecting Leads, Quotations, Orders, Invoices, Service, HR, and Ledger.
- * Zero Manual Consolidation: Automated real-time telemetry replacing slow spreadsheets with cloud-synced databases.

Header: Eliminating Repeat Failures & Guaranteeing Quality SLAs

- * Cascading Equipment Master: Customer-to-model-to-serial number validation prevents inaccurate ticket entry.
- * 60-Day Repeat Complaint Detection: Automated red warning banners highlight persistent hardware/sensor failure patterns.
- * Live Engineer Notifications: Floating popup alerts ensure zero service delays for critical client breakdowns.

Header: Transforming Aftermarket Support into a Predictable Growth Driver

- * AMC Revenue Lifecycle: Dedicated AMC Leads -> Quotations -> Orders -> Invoices -> Registry Monitoring.
- * Warranty-to-AMC Pipeline: Automatic 60-day expiry conversion captures recurring contracts from installed equipment.
- * High-Margin Spares Catalog: Instant replacement ordering with gross margin intelligence and fast-moving inventory tracking.

Header: Protecting Gross Margins with Tiered Authorization Gates

- * Tiered Discount Approvals: Discounts >15% route to Commercial Head; discounts >25% require Managing Director authorization.
- * Senior Invoicing Authorization: High-value commercial invoices require Director sign-off before client delivery.
- * Statutory Contract Safeguards: Bank Guarantees (BG/PG), retention terms, and bad debt adjustments tracked centrally.

Header: Connecting Daily Human Capital Effort Directly to Strategic Goals

- * Morning Plan vs Evening Actuals: Real-time calculation of daily completion percentage and task efficiency.
- * Special Assignment Credits: Full-day client training, breakdown site visits, and audits grant 100% daily productivity.
- * Transparent Scorecards: Objective quarterly achievement ratings feed directly into performance appraisal cycles.

Header: Tamper-Proof Audit Trails and Resilient Cloud Architecture

- * Immutable Audit Trail: Captures every update, quotation revision, invoice approval, and deletion with before/after diffs.
- * Role-Based Access Control (RBAC): Super Admin, Admin, Manager, and Staff roles with granular page permissions.
- * Dual Resilience: Dual offline LocalStorage + Firebase Firestore cloud synchronization for 100% uptime.
